PROFESSIONAL SUMMARY

Detail-oriented IT graduate with strong foundation in Python, SQL, and data analysis. Built hands-on projects in computer vision and AI-assisted systems. Eager to contribute analytical and problem-solving skills in a professional data environment.

EXPERIENCE

Software Implementation Trainee — Splendid Software Solutions, Coimbatore *Jul 2025*

- Executed SQL queries to test software functionality and documented findings in structured reports
- Loaded and validated client data into the software system, ensuring accurate data integration

Microsoft Azure AI Intern — Edunet Foundation, Bengaluru *May – Jun 2025*

- Completed a structured virtual internship covering core cloud computing and AI concepts on Microsoft Azure
- Built an AI-based retinal disease detection system as the capstone project using deep learning and image classification

PROJECTS

AI-Powered Retinal Disease Detection

- Built an image classification model using CNN and VGG16 architecture to detect 4 types of retinal diseases from eye scan images
- Handled dataset preparation and image preprocessing to ensure clean input for model training
- Achieved multi-class disease classification with labeled eye scan data

AI-Based Interview Coach System

- Developed a real-time interview analysis system that captures live audio and video input simultaneously
- Combined multiple signals to generate a coherence score and instant feedback on candidate responses
- Integrated emotion and voice recognition pipeline for automated performance evaluation

SKILLS

Languages: Python, SQL

Data & BI Tools: Power BI, Excel

Python Libraries: Pandas, NumPy, Matplotlib

Developer Tools: VS Code, Jupyter Notebook

EDUCATION

B.Tech — Information Technology *CGPA: 7.9*

Info Institute of Engineering, Coimbatore

Higher Secondary (12th) *67%*

G Ramaswamy Naidu Matriculation HR Sec School, Coimbatore

LEADERSHIP & ACTIVITIES

- **Data Science Lead, GDG on Campus** – Led data science domain and supported student learning activities
- **Secretary, Science Club** – Organized 2 technical events, managing 100+ students
